Important Survey Statistics About Online Reviews

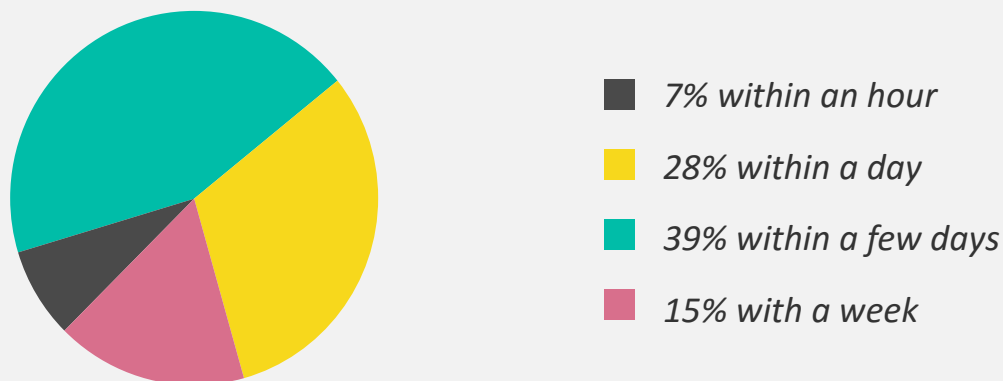

67% of consumers are influenced by online reviews
– **Moz 2015**

97% of consumers say they read reviews about local businesses
– **BIA Kelsey**

90% of consumers say positive reviews influenced their purchase decisions
– **Marketing Land**

82% of users visit reviews sites because they intend to buy a product or service
– **Nielsen**

89% users who read reviews make a purchase within a week
– **Nielsen**

Local Consumer Review Survey 2014:

72% of consumers say that positive reviews make them trust a local business more

88% of consumers say they trust online reviews as much as personal recommendations

72% of consumers will take action after reading a positive review

These statistics are a few months to a few years old. And what that likely means is the number of people influenced are even higher today than they were when surveyed.

Who am I?

My name is Matt Prados. I have been helping local businesses for the better part of a decade with their online marketing. I am founder and CEO of the digital marketing firm Gotcha Local, and we have helped hundreds of local businesses with their digital needs.

I also founded and am CEO of ReviewWave.com. I created this software to help our clients achieve high online review numbers, and decided to open this software up to all business owners in order to assist them in their review needs as well.

I have been preaching for years that you **MUST** get 5 star reviews from as many customers or patients as possible. But... You actually must have **MORE** reviews than every one of your competitors, and **NOT** a just a few more but rather **A LOT** more!

We have streamlined the exact steps needed to get high volume 5-star reviews as quickly as possible.

How Do You Get Massive Reviews In Volume?

1st: Have a strong sense of PRIDE in what you do, and make sure each and every patient or customer is super happy with their service BEFORE they leave.

2nd: Ask your patrons if they would be willing to leave you a review online BEFORE they leave.

3rd: Send them BOTH a text message AND an email with the proper instructions and links for them to actually give you a 5-star review.

4th: Do these steps in VOLUME, Over and Over, Every Day!

Bonus Tip:

Get reviews on ALL major platforms in this order of importance:

1. Google
2. Yelp
3. Yahoo
4. Bing
5. Industry Specific Sites
6. Location Specific Sites
7. And then more generic sites like Yellow Pages.

System

So I explained a minute ago the four exact steps that any business can and must do in order to gather massive online reviews and dominate the internet.

Automation?

By setting up systems that require little more work once implemented, automation is leverage for small businesses. Our technology can reduce the time it takes your team to accomplish these tasks, so this is a win-win.

At Review Wave, we know you are busy. And we know that to stay busy you must get more 5-star reviews online. This is exactly why we created our platform—to give you automation and therefore leverage to get this seemingly impossible job done on a consistent basis.

Let me walk you through these simple steps to show you exactly how the automated process works...

How would you rate your experience with us?

Continue

If they leave 4 or 5 stars, then we ask them to share that review on the major review sites like Google and Yelp:

review
wave

We are so happy you had a great experience! Would you mind taking a moment to share that experience with others on one of these sites:

 Google+ Review

 Yelp Review

If they leave 3 or fewer stars, then we find out why, and you get the feedback to improve your customer service:

This entire system literally takes about 5 minutes to set up, then just a few minutes per day to build up an avalanche of 5-star reviews online for your business.

As if that's not enough to get you to check it out, we also offer a 100% FREE 14-day trial. That is plenty of time to get a few new reviews!
